

My wife and I and our three children are strongly opposed to any weakening of the enforcement of the "no call" list protection from telemarketers. The use of the list has made a HUGE improvement in our lives, and we would be severely disrupted if we had to deal with the way these companies interrupted our lives like before. Please don't make the serious error of letting down the citizens of America like this proposed action would do.

Thank you for reading this.

Sincerely,

James D. McMillan and Kim Stanfill-McMillan
